

Avcorp designs and builds major airframe structures for some of the world's leading aircraft companies, including Boeing, Bombardier, and Cessna. With 50 years of experience, approximately 500 skilled employees and 354,000 square feet of facilities, Avcorp offers integrated composite and metallic aircraft structures to aircraft manufacturers, a distinct advantage in the pursuit of contracts for new aircraft designs, which require lower-cost, light-weight, strong, reliable structures. Avcorp is a Canadian public company traded on the Toronto Stock Exchange (TSX."AVP"). More information is available at <http://www.avcorp.com/>.

PRODUCTION CONTROLLER

Avcorp is searching for a proactive and detail-oriented individual for an opening in Production Control. Reporting to the Production Control Manager, this position will be responsible for scheduling and coordinating work through the shop floor in a manufacturing environment. The ideal incumbent will be flexible, able to prioritize the workload with the needs of production, and have a continual improvement mindset. He/she will liaise with Production Supervisors, Shop Floor employees, and other departments, so a strong team-orientation is essential.

Major Responsibilities

- Develop standard production schedule for individual work centres
- Monitor schedule attainment and analyze schedule variance
- Adjust daily work centre schedules and develop priorities based on available resources
- Coordinate parts flow through work centres as per schedule

Participates In:

- Authorizing work to the shop floor by releasing, printing, and delivering the production orders using MRP outputs
- Communicating progress of production schedules (via reports, charts, meetings)
- Monitoring status of rush orders (including shortages)
- Maintaining item master information (order quantities and planner codes)
- Lean initiatives to increase shop throughput and capacity
- Other duties as assigned

Qualifications

- Post secondary degree or diploma in Operations Management
- Minimum 3 to 5 years of Production scheduling experience in a manufacturing environment
- Good working knowledge of ERP/MRP and BOMs
- Excellent English written and verbal communication skills
- Strong ability to focus on detail, accuracy and take initiative
- Excellent problem solving, analytical and organization skills
- Ability to work under pressure in a high paced environment
- Working knowledge of Lean Techniques (Kanban and Process Improvements)
- Proficiency in the use of MS Word and Excel

Avcorp offers a competitive compensation and benefit package, while fostering equal opportunity employment. Please apply online or e-mail resumes to recruiting@avcorp.com. Please put "**Production Controller**" in the subject line. We thank all applicants in advance but advise that only those under consideration will be contacted.
