

Avcorp designs and builds major airframe structures for some of the world's leading aircraft companies, including Boeing, Bombardier, and Cessna. With 50 years of experience, more than 750 skilled employees and 355,000 square feet of facilities Avcorp offers integrated composite and metallic aircraft structures to aircraft manufacturers, a distinct advantage in the pursuit of contracts for new aircraft designs, which require lower-cost, light-weight, strong, reliable structures. Avcorp is a Canadian public company traded on the Toronto Stock Exchange (TSX: "AVP"). More information is available at <http://www.avcorp.com/>.

PROJECT ENGINEERS - New Product Introduction & Project Management Office

Avcorp is currently in a growth phase introducing new product lines in the Very Light Jet market, such as the HondaJet and new military projects, such as the Joint Strike Fighter. We are seeking highly talented, innovative and quality-focused individuals of all levels to join our PMO and NPI groups.

Responsibilities

- Propose, design, plan, execute and evaluate projects according to the company's Project Management Process.
- Interact with Avcorp employees at all levels to obtain product/process information related to specific projects.
- Interact with various Avcorp internal/external suppliers and customers.
- Perform feasibility studies, cost benefit analysis and return on investment.
- Identify and coordinate resources over approved projects.
- Organize, track and report on project schedules and budgets.
- Remove any roadblocks/constraints that impede the progress of a project.
- Participate in monthly project status updates and reviews.

Qualifications

- Bachelor of Engineering, equivalent industrial/mechanical engineering degree.
- Experience in a manufacturing environment.
- Excellent time management and organizational abilities.
- Experience with Microsoft Visio, Office and Project.
- Experience with 3D CAD programs.

Senior Candidates (P.Eng)

- Ability to facilitate the design/redesign of a complete production system, including customer, supplier and support interfaces, including the successful implementation of the project.
- Has successfully completed a high value \$ project.
- Has successfully implemented a NPI.
- Ability to mentor and underwrite EIT's in obtaining their P Eng credentials
- Ability to provide external project management services to customers requiring this consulting activity.
- Is self-sufficient in day to day problem and process resolution.

Intermediate Project Engineer (EIT)

- Ability to provide knowledgeable data input into design/redesign of a complete production system.
- Has successfully completed a series of low to medium \$ project.
- Has run a block of project tasks as part of an NPI team.
- Proven ability to issue detailed Cost Benefit Analysis and ROI's.
- Demonstrates 3D drawing proficiency and ME related skills.

Avcorp offers a competitive compensation and benefit package, while fostering equal opportunity employment. Please email resumes to recruiting@avcorp.com and insert "**Project Engineers**" in the subject line. We thank all applicants in advance but advise that only those under consideration will be contacted.
